### COMPANY PROFILE

## ROAD CONSTRUCTION AND CIVIL INFRASTRUCTURE PROJECTS

MANZINI MUNICIPALITY | ESWATINI

#### GRAVEL ROAD CONSTRUCTION

Earthworks, shaping,  
compaction, G5/G6/G7

#### TAR (ASPHALT) ROAD CONSTRUCTION

Base, subbase,  
asphalt surfacing

#### BRIDGE CONSTRUCTION AND REHABILITATION

Concrete bridges, suspension  
bridges, access bridges

#### CULVERTS AND STORMWATER DRAINAGE

Box culverts, pipe culverts,  
headwalls and drainage structures

#### EARTHWORKS AND BULK EXCAVATIONS

Site preparation,  
cut and fill, bulk earthworks

#### ROAD REHABILITATION AND MAINTENANCE

Gravel and tar roads,  
upgrades and reseals

### KEY PROJECT EXPERIENCE – MANZINI MUNICIPALITY, ESWATINI

| No. | Project Title                                                  | Contract Value | Commencement | Completion | Contract Number      |
|-----|----------------------------------------------------------------|----------------|--------------|------------|----------------------|
| 1   | Samuel Bridge (Ngwane Park)                                    | R 75 million   | 12 Sep 2023  | 24 months  | MNZ-RD-INT-2023-122  |
| 2   | Jolitane Suspension Bridge                                     | R 65 million   | 18 Jan 2022  | 24 months  | MNZ-RD-INT-2022-9823 |
| 3   | Bosco Bridge Feeder Road System                                | R 45 million   | 2024         | —          | —                    |
| 4   | MR3 – Manzini Service Roads and Access Interchange Works       | R 70 million   | 2020         | —          | —                    |
| 5   | Meintjies Street and CBD Access Roads Rehabilitation (9.25 km) | R 20.2 million | 2024         | —          | —                    |
| 6   | Nkoseluhlaza Street Rehabilitation (2.75 km)                   | R 9.3 million  | 2024         | —          | —                    |
| 7   | Ngwane Street Rehabilitation (7.25 km)                         | R 15.2 million | 2023         | —          | —                    |
| 8   | Stanley Street Rehabilitation (2 km)                           | R 7.11 million | 2022         | —          | —                    |

GRAVEL ROADS | TAR ROADS | BRIDGES | CULVERTS | STORMWATER DRAINAGE

## 1. Company Overview

Anti Climb Africa (Pty) Ltd provides construction and infrastructure services covering road construction, civil works and related infrastructure development.

Our service capabilities include gravel-road construction and maintenance, tar/asphalt road works, bridge works, culverts, stormwater drainage, earthworks and road rehabilitation.

## 2. Road Construction Services

### Gravel Roads

- Road clearing, earthworks, formation shaping and grading.
- Supply, placement and compaction of approved gravel materials.
- G5/G6/G7 layer works where specified.
- Watering, compaction control, final shaping and maintenance.
- Side drains and stormwater control where included.

### Tar / Asphalt Roads

- Roadbed and pavement-layer preparation.
- Subgrade, subbase and base-course preparation.
- Prime/tack coat and asphalt surfacing where specified.
- Road shoulders, kerbs, drainage structures and road marking where included.

## 3. Bridges, Culverts & Drainage

Our civil infrastructure services include bridge and culvert works and associated drainage activities.

- Bridge construction, rehabilitation and associated access-road works.
- Suspension bridge works and approach infrastructure.
- Culvert installation or replacement, including pipe culverts and headwalls where specified.
- Stormwater channels, inlets and outlets, erosion protection, bedding and backfilling.

### Bridge & Culvert Project References — Eswatini

| Project / structure             | Value              | Start / period                         | Reference            |
|---------------------------------|--------------------|----------------------------------------|----------------------|
| Samuel Bridge (Ngwane Park)     | R75 million        | 12 September 2023; 24 months           | MNZ-RD-INT-2023-122  |
| Jolitane Suspension Bridge      | R65 million        | 18 January 2022; 24 months             | MNZ-RD-INT-2022-9823 |
| Bosco Bridge Feeder Road System | R45 million (2024) | Feeder road / bridge-related reference | Details to confirm   |

## 4. Selected Road Project References

| Project                                                  | Value / year         | Length / description                 |
|----------------------------------------------------------|----------------------|--------------------------------------|
| MR3 – Manzini Service Roads and Access Interchange Works | R70 million (2020)   | Service roads and access interchange |
| Meintjies Street and CBD Access Roads Rehabilitation     | R20.2 million (2024) | 9.25 km                              |
| Nkoseluhlaza Street Rehabilitation                       | R9.3 million (2024)  | 2.75 km                              |
| Ngwane Street Rehabilitation                             | R15.2 million (2023) | 7.25 km                              |
| Stanley Street Rehabilitation                            | R7.11 million (2022) | 2 km                                 |

## 5. Anti Climb Africa Roadworks Team

Our team supporting road and civil infrastructure delivery.

## 6. Plant & Equipment

- Motor grader
- Excavator
- Road roller / compactor
- Water bowser
- Front-end loader
- Tipper trucks
- Asphalt paver and related surfacing equipment

## 7. Quality, Safety & Environment

- Protect workers, road users and nearby communities.
- Use suitable PPE and site safety controls.
- Work to approved drawings, specifications and contract requirements.
- Manage materials, dust, waste, water and runoff responsibly.
- Maintain quality/testing records where required.
